-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1796

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

**Claims 21-38 are rejected under 35 U.S.C. 103(a) as obvious over Yang et al (US 6,036,726).**

Rejection is maintained for reason of record with following response.

Again, Yang et al teach recycling post-consumer materials containing polyamides at col. in example 12 wherein a mixture of solvent, a pressure of 250 psig and a temperature of 140-190 °C and a successful dissolution process are taught. Thus, choosing the instant pressure and temperature would be a *prima facie* obviousness contrary to applicant's assertion.

Yang et al teach that the dissolution process was successful with each of these post-consumer carpet samples at col. 14, lines 14-15, and applicant failed to show said example 12 does not meet claim 38 for a minimum of 82% dissolution (again, claims 21-37 do not require any particular % dissolution contrary to applicant's assertion.

Applicant failed to address said example 12.
